Countryside

Camping De Krabbeplaat is situated in the heart of a recreation area that is rich in nature. The campsite also pays a great deal of attention to the natural environment. De Krabbeplaat has its own company nature conservation plan. This means that the campsite has been adapted as much as possible to fit in with its natural surroundings. Nature is given the chance to thrive in and around the campsite. There are bird boxes hanging in trees; wood hollow where hedgehogs, polecats, weasels and small birds can make themselves at home; patches of rough growth for butterflies; old-fashioned standard fruit trees; and the green aspects of the plots have been adapted as much as possible to be in keeping with the natural environment. Mowing and upkeep are of course also fully adapted to the precious surrounding environment.

Surroundings

The area around De Krabbeplaat campsite is unique. Everything a holidaymaker could wish for can be found in the immediate surroundings: the beaches and recreation lakes provide a rich water environment; cultural facilities can be found in the historic towns; and there are countless opportunities for discovering and enjoying the countryside in all its glory. The vast expanse of the polder landscape has its own charm. And, of course, it is always handy to have a major city within easy reach.

Water

Water fanatics are in their element holidaying at De Krabbeplaat. The campsite is situated on the shore of the Brielse Meer, a large recreation lake where all forms of water sport are possible:

swimming, sailing, pedal-boating, canoeing, fishing or just enjoying a walk along the water. The island of Voorne-Putten also has a number of beautiful recreation lakes and natural rivers like the Old Meuse, the Spui and the Haringvliet. The island is on the coast and has a number of lovely beaches (Oostvoorne, Rockanje, and Hellevoetsluis, for example) just a few minutes drive from the campsite.

Culture

There are lots of cultural facilities and activities in the surrounding area. Brielle and Hellevoetsluis are two unique fortified towns. They have numerous impressive historical monuments, museums, galleries and pleasant café terraces where you can sit and enjoy the attractive surroundings. The many villages on the island have managed to preserve their unique, authentic centres, and towns like Dordrecht, Delft, Zierikzee and Middelburg are definite recommendations for a cultural day trip.

Countryside

It may be a recreation area, but the natural countryside is very close by. Nature thrives throughout the area. At Oostvoorne, at the tip of the island, lies the unique Voorne's dune. Due to the direct influence of the sea, there are plants growing in this nature reserve that are not found in the rest of Europe. Rockanje has the Quackjeswater, a beautiful lake in amongst the dunes with spoonbill and cormorant colonies, together with its own unique flora and fauna. Along the Haringvliet, the salt marshes and mud flats have their own natural value, and there are countless places in the polder landscape where nature continues to reign.

Towns

If the weather is bad one day during your stay, you might like to go to one of the nearby towns for the day. There are various options. The centre of Rotterdam is less than half an hour's drive from De Krabbeplaat. A little closer to home are the modern town centres of Spijkenisse, Hellevoetsluis and Hoogvliet, with their many shops.

Dogs are not allowed.
